

# AUTO AND HORSE CAUSE ACCIDENTS

Machine Turns Over, and  
Man's Leg Is Broken—  
Woman Thrown from  
Animal

The list of accidents usually following the celebration of a national holiday, was exceptionally small so far as Edmonton and its vicinity was concerned. Several minor ones happened, but the only two in which people were injured seriously were when Miss Mabel Doherty, proprietress of the West End Millinery store on Twenty-fourth street was thrown from her horse, and when a Ford auto belonging to Mr. A. S. Duolos of the Edmonton Produce company turned turtle on the Cooking Lake trail.

The latter accident was a most fortunate one in every respect. The car when it went over contained Mr. Duolos, Mrs. Niven, manager of the Edmonton Produce company, and his wife and Miss Stiff, a niece of Mr. Niven, and only one of the party, Mr. Niven, was hurt.

The party was enjoying a ride along the trail when at the foot of a hill about 12 miles from the city, while making a turn, the car skidded, and turned completely over, before Mr. Duolos who was driving could gain control of the wheel. The other three members of the party were thrown clear of the car and landed on the edge of the roadway in the grass and sand, none of them sustaining more than a few bruises and being badly shaken up.

Mr. Niven, however, was pinned beneath the car and when he was taken out it was found that his leg was broken. Dr. McGibbon, on his car, to the scene of the accident when he received word and took Mr. Niven to his residence on the Stony Plains road where he is reported to be doing as well as can be expected.

The car was not badly damaged and Mr. Duolos drove it home after it had been righted on the road.

Miss Doherty, who was pitched from her horse on Twenty-first street, sustained a deep cut in the back of her skull, though Dr. McGibbon her physician does not think that there is a fracture, and states that unless other complications set in that she will recover.

# LEANDER MAKE S SPEEDIEST TRIAL

They Are Expected to Defeat  
the Argonaut, But Close  
Race Expected.

Honley-on-Plaines, Reg., July 2.—Leander, paced for two minutes by Sten last evening did the half course at Pawley in 5 minutes 14 seconds. This is the fastest time ever made by the Argonaut, in a two-minute race, were a few feet short of the distance covered by the Leander crew in the same time.

Both the sportsmen and sporting life, forecast Leander for a winner over the Argonaut tomorrow and pick them for the finals of the grand challenge. Opinion generally favors a close finish.

The regatta opened this morning in delightful weather. The Argonaut crew are all well.

## TART REACHES CANADA.

Montreal, July 2.—Former president W. H. Tart arrived in St. Lambert just across the river from this city at 8 o'clock yesterday morning, where he claimed cars on route for Murray Bay. The change was scheduled to take place at the Bonaventure station here, but the former president was told a tale and through the courtesy of the railway officials the distinguished visitor was transferred to the I. C. R. at St. Lambert.

## KILLED IN AUTO MISHAP.

Minneapolis, July 2.—Claude Clement, North McGregor, Iowa, and Sam Gillesby, assistant to Dr. John O. Toff, former police surgeon, were instantly killed at 2 o'clock yesterday morning when an automobile, in which they were riding from Medicine Lake to Minneapolis, turned turtle at Union and Sixth avenue north.

Maurice Olson, of Mason City, Iowa, the third occupant of the car, was thrown out of the machine and escaped with minor bruises. The automobile was burned.

## TO MEET IN DENVER.

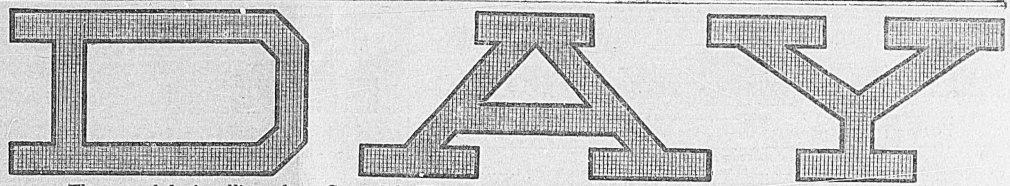

Washington, July 2.—Denver was selected yesterday as the meeting place of the triennial convention in 1916 of the brotherhood of locomotive firemen and engineers. The convention elected the following officers: President, W. F. Carter, Peoria, Ill.; vice president, Timothy Shea, Peoria; vice presidents, C. V. McLaughlin, of Omaha; P. J. McNamara, of St. Paul; George K. Work, Toronto; W. B. Robinson, Youngstown, Ohio, and Albert Phillips of Sacramento, Calif.

## WOMAN KILLS HERSELF.

St. John, N.B., July 2.—Miss Gladys Munroe, who was struck by lightning a fortnight ago which affected her brain, ended her life yesterday by taking cyanide salt.

## BODY OF MISSING GIRL.

Niagara Falls, July 2.—The body of a young woman found yesterday morning floating near the Maid of the Mist landing, has been identified as that of Miss Leyla Cox, a young girl of Wilkesbarre, Pa., who has been missing since June 16.

## THE COMING AVAILANCHE OF TRADE IN THE WEST

From the grain market reports it is a pretty difficult thing at this particular time of year to gather much information as to how the crop is coming on. This is the season when the clutch bug, the fall weevil, the drought, the flood, the moth and every kind of an ailment which can be spelled on the ticker gets into the wheat reports; also at the same time it is the season when the rain comes exactly right, when crops supposed to have been drowned out are suddenly discovered to be doing nicely, and when everything indicates the greatest production of record. Which of the stories appeals to the individual generally depends upon how much, and on what side, he has his money bucketed. Either way he will find enough chills and thrills and exultation, and tremors in the market wire "dope" to compensate him for some of his loss even when he guesses wrong.

From the government reports, however, although considerably later than the market wire in coming to conclusions, one may gather in a general way what the prospects are, and this year there is a noticeable optimism about the government reports which cannot be interpreted otherwise than that the bulletin-makers are thoroughly convinced that a great crop is to be reaped, a crop which in general average per acre will probably equal the best ever cut in the west. Practically speaking, the only unsatisfactory feature so far noted in the crop reports is a slight lateness in some parts, Manitoba particularly, caused by lack of moisture early in the season, but with the abundant rainfalls of the last ten days, this lateness may yet be overcome should the weather this month prove warm and, even though not overcome, may not prove injurious if the frost is late.

Added to this good prospect there is a substantial increase in the crop areas. For the three provinces of Alberta, Saskatchewan and Manitoba, the total wheat area is estimated at 9,014,800 acres, as compared with 8,961,800 acres last year; that of oats at 5,207,700 acres, compared with 4,913,900 acres, and that of barley at 852,600 acres, compared with 809,800 acres, these differences representing increases of 52,000 acres for wheat, 293,900 acres for oats and 42,800 acres for barley, or 338,600 acres more land under crop in the three provinces this year than last.

To make the outlook even better, the Alberta reports show that the mixed grain business in this province is progressing as never before, and the percentage of prosperity left to chance and the caprices of the weather is thereby made less than in any previous time in the country's history. Most especially in the south country is this change marked, where the Lethbridge board of trade, the Exhibition board and similar associations in that and other centres in the south have finally arrived at the necessities of diversified farming and are helping to import high-grade live stock until now it is reports of sales of pure bred imports by boards of trade to improve the dairy herds which constitute the agricultural items from this part of Alberta, rather than prizes offered for fields of standing grain as in previous years. In the central and more northerly parts of the province diversified farming has always been the rule, and the chances taken have always been consequently less from Red Deer north.

Looked at from any angle, the results of this year's farming operations in the west are due to bring an enormous return of cash into the country, aggregating a total which will far eclipse anything ever recorded before and which will probably constitute the largest average return ever distributed to any farming community in the world. When it is taken into consideration that even the very worst that could happen now could scarcely bring the value of the wheat crop alone below one hundred million dollars, and that with only fair, average weather, it will probably run one hundred and fifty million dollars, while the best of weather might put it over two hundred millions of dollars, and when it is considered that this is for one item alone, taking no count of the oats, barley and flax, nor of the returns to the country through the produce and wool markets, some idea of the enormous wealth which is to be added to Western Canada as a reward for the crop now maturing may be gathered.

In the face of these certainties, the man who can regard the immediate future of the west with anything like pessimism is merely woe. All the financial stringencies and stock country of such enormous productivity. The Europe's six-township empires their wars, but again the whole world will be dumping new necessities of life. Wide-awake business men they are experiencing any lull at the present for an avalanche of trade which will set all

A PROBLEM FOR THE FLAG-WAVERS  
Hon. George E. Foster, treaty-maker extraordinary for the Borden government, is in Japan en route home from Australia and, so it is intimated in the dispatches, will have little prospect to report so far as the antipodeans are concerned.  
The Australian commonwealth has dabbled with protection in a mild and experimental way, but has decided to go back to the old principle of free trade, recognizing that if the country is to establish itself on a basis of permanent prosperity it must relieve its people of parasitical industries and burdensome tariffs. Foster's offer to establish a household variety of reciprocal trade does not appeal to them. They are willing to buy in Canada what Canada offers them upon the best terms, but they are not willing to shut the rest of the world from their market for the benefit of Canadians who may not be able to sell in Australia without this monopoly.  
Besides being the high priest of protection, Foster is also an ardent flag-waver. It would be interesting to know just how much he could attract his protectionist loyalty with the other loyalty which Australia knows.

THE CRIMINAL CODE FOR PUNISHING POVERTY.  
Lacking 50 cents to pay his fine for not having a bicycle license, a man by the name of Dymtro Prokopiuk was sent to jail in Winnipeg the other day to serve a sentence of ten days.  
Whoever the unfortunate Dymtro is he will undoubtedly have a strange conception of the thing called British justice as it is introduced to him. When he comes to consider, during his weary hours of mauling limestone, that had he had as much money as many a worse offender habitually pays

for a cigar he would not have been sent to prison, he is quite certain to come to the obvious conclusion that the Canadian criminal code was framed for the purpose of punishing poverty. Quite likely he will conclude that if the amount which he did not have to purchase his liberty had been stated at ten cents, instead of five times that figure, they would have hanged him.  
VOLATILE "CHIN-WHEELS" WILL NOT AFFECT BOND MARKET  
Mr. J. Horne Payne now says that he was entirely misunderstood by the Canadian papers, that he did not intend to say that the western cities' debentures were not good buying, or that Canadian cities were not a good risk, but that a dangerous financial condition was being created by Canadian cities spending money more rapidly than it can be raised on the bond market.  
Quite evidently Mr. J. Horne Payne has been talked to by someone higher up, somebody like Mr. MacKenzie or Mr. Mann, who understand the Canadian sentiment much better than anyone ever in London, and who do not relish the situation of having one of their chief financiers qualifying as a leader of the anvil chorus.  
However, it makes but little difference what Mr. J. Horne Payne says. Western cities, like Edmonton, for instance, which own all their franchises, and have the backing of the most progressive and most rapidly developing country in the world as a guarantee of their ability to pay, are not likely to be affected very much by any such volatile chin-wheels by next financiers. If the bond buyers of London take him seriously the loss is theirs.

## OVERCOME WITH HER EMOTION IS LADY SACKVILLE

Occasion Is the Reading of the Farewell Letters to Her from Sir John Scott.

## COURTROOM IS CROWDED WITH THE FASHIONABLE

Women Are Content to Stand on One Leg on a step or remain in the Farthest Corner to Witness the Scene.

London, July 2.—Many of the fair sex besieged the doors of the probate court in the expectation that Lady Sackville would give evidence in the famous case of Sir John Murray Scott's will. Fashionably dressed women, who came down the Strand in splendid equipages, were content to stand on one leg on the edge of a step or in the furthest corner in order to get a glimpse of the scene. The space for friends of the parties was crowded to the doors with hand street fashions. The public gallery was crisscrossed. During the reading of the farewell letters from Sir John Scott to Lady Sackville, in which he twice repeated that he enjoyed having someone in whom he could confide in his fine times, Lady Sackville was overcome with emotion.

**Very Handsome Woman.**  
The most great excitement was Lady Sackville went into the box. She is an unusually handsome woman, no less than 50, and appearing to be scarcely of middle age, although her daughter is now a young woman.

The court with its pretty secret of a French woman, as if English were her adopted language.  
Lady Sackville and her family yesterday entered a general denial of the allegations made by the relatives of the late Sir John Murray Scott that they had influenced Sir John to leave to them the bulk of his fortune of \$5,000,000, or that Lady Sackville had alienated him from his family.  
Since the suit opened last week interest in the proceedings has increased day by day owing to the prominence of the parties concerned.

**Must Go to Jury.**  
The case for the defence concluded yesterday morning and Sir Edward Carson, counsel for the Sackvilles, addressed the jury.  
To first asked the judge to declare that no evidence had been brought forward to show the existence of a codicil to the will which Sir John Murray Scott was alleged to have made in 1910 or 1911 revoking the legacy to Lady Sackville or that there was any evidence of fraud or undue influence against the Sackvilles.  
The judge, however, declared that the case must go to the jury.

**PROMOTION FOR PRICE**  
Calgary, July 2.—The report is current in railroad circles that Superintendent A. Price of the Alberta Division of the Canadian Pacific, and now in Montreal, has been tendered the post of general superintendent of transportation, with headquarters in Montreal.

Port William, July 2.—With the Dominion Day celebration falling to the lot of Port Arthur this year the holiday was quite observed in Port William. Thousands of people journeyed to the sister city where they witnessed the Port William Morris band and the Port Arthur 6 Co. band, and the local athletes capture the track event. The city was practically deserted as excursions were run to Silver Island and Kakabeka Falls.

Brandon, July 2.—Dominion Day was spent very quietly at Brandon. A photo organized by the O. N. C. G. left the 9:30 special for Souris, and a Manchester Unity excursion went via O. N. R. to Portage.

## Ease That Sore Joint Nerviline Will Do It

The Champion Clog and Pedestal Dancer of Canada Tells How to Keep in Trim

Few men in his profession are better known than Mr. Thomas Hogan, of 27 Fortification Lane, Montreal, who writes:—"To limber up a stiff joint, to remove every sense of soreness from tired muscles I can tell you nothing compares with Nerviline. It is really a wonderful liniment, and I use it constantly, simply because I find it keeps the muscles and joints supple and entirely free from pain and stiffness. I earnestly recommend Nerviline to every person that requires to use a strong, penetrating, pain-subduing liniment."  
For Rheumatism Nerviline is a wonder. For Sciatica it cures where others fail; for Lumbago, stiffness and cold, nothing surpasses it. Keep Nerviline handy—it's good to take invadently, drowsy internal pains quickly, and is just as good for outward application. Large family size bottle, 50c; small size, 25c, at all storekeepers and druggists. Write The Catarisone Co., Buffalo, N. Y.

## HOLIDAY IN EAST MARRED BY DEATH

Hat Weather Is Credited with Being Cause of Most of the Fatalities.

Toronto, July 2.—Once more Toronto paid heavy toll to the oppressive weather when two boys lost their lives through drowning, bringing the total of drownings during the past few days up to nine. The victims were Edward Henry, aged 15, and Clarence Clark, aged 12, in addition eight persons were rescued from the water by Captain Ward's life saving crew and by citizens not identified with any official organization.  
There were four victims of the heat wave. The ywere: John Owens, 712 Jaffes Road; Mrs. Oaklin, 119 Carlton street; H. A. Clarke, Oakland, California, picked up unconscious on the street, and Charles Watson, 13 Augusta avenue.

Montreal, July 2.—Albert Newby lost his life in the St. Lawrence yesterday.

### THE GAY WORLD.

**DAVISON—NEWTON.**  
The marriage of Miss Dayne Newton, daughter of Mrs. F. Muckle, and Mr. Bert M. Davison, both of this city, was solemnized in All Saints church on Monday at high noon, the Rev. Canon Webb officiating. The bride, who was given away by her stepfather, Mr. F. Muckle, wore her travelling suit of cream broadcloth and carried a bouquet of bridal roses. The bridesmaid, Miss Nellie Burrell, was in light shade of tan silk and carried pink carnations. The best man was Mr. W. Bloomer.

After the ceremony the guests repaired to the home of the bride's parents, where a daily wedding luncheon was served. The health of the bride and bridesmaid was proposed by the best man in a very naïf little speech, seconded by H. Fiedler, which was suitably responded to by the bridegroom.

The bridesmaid's presents to the bride was a diamond ring and silver watch; to the bridesmaid, a gold bracelet, and to the best man, a pair of gold cuff links.

The beautiful presents received, consisting of cut glass, silverware, linen and other articles too numerous to mention are demonstrative of the popularity of both bride and groom.

Mr. and Mrs. Davison left on the afternoon train for Banff, Vancouver, Seattle, and other coast cities, and on their return will reside in Edmonton. The guests present were: Mr. and Mrs. H. Dobbie, Mr. and Mrs. A. V. Dutton, Mr. and Mrs. Norman Watson, Mr. and Mrs. W. Bryant, Mr. and Mrs. E. Smart, Mr. and Mrs. H. H. Corlett, Mr. and Mrs. Tully, Mr. and Mrs. W. Bohrer, Mrs. H. Mrs. Henry J. Root, Alhambra avenue, gave a jolly birthday party the other day for her little daughter, Miss Muriel. There were 14 guests asked to the party, and all of them came in dainty white frocks and their very best smiles.

Miss Muriel did the honors of reception with quite a grown-up air, and when everyone had shown their love, they could be very quiet when they wanted to, a rollicking set of games was started and everyone had a splendid time. The birthday party was nicely decorated with flowers and tiny baskets of sweets and nuts. In the center was the gorgeous birthday cake, with 13 lighted candles to brighten its glory.

The guests were the Misses Helen, McCarthy, Midge Haggerty, Irene Bauman, Olivia Reagan, Mona Maher, Theresa Maher, Margaret Josephine Booth, Mary and Florence Hart, Florence and Kathleen Each, Elizabeth Collinson and Margaret Conway.

Montreal, July 2.—Dominion day, the hottest on record, was quietly celebrated here. One of the notable features was its general observance by the French.

Practically every business house in the city was closed, and the parks, roads, ball games and race track were thronged by record-breaking crowds.

Few professions were reported. Temperature reached 92.2.

Aside from the royal salute in the Champs de Mars, there was no official observance of the day.

**MONTYRE FOUNTAIN UNVEILED.**  
The bronze fountain which has been erected to the memory of Dr. Wilbert McIntyre, federal member of parliament for the Saskatchewan division from 1906 to 1908, was yesterday unveiled by Mrs. J. M. Douglas, in the presence of a large crowd. The fountain has been erected on Main street, on the south side, near the library and city offices. The fountain bears the inscription: "Erected by his constituents in loving memory of the late Dr. Wilbert McIntyre, an able representative."

a worthy citizen, a true friend." I. M. Douglas, M.P., who presided, referred to the sterling character of McIntyre, which, he said, had been appreciated by his political friends and opponents alike. Mayor Short referred to Dr. McIntyre as a man who, by his work in parliament, had had an important effect in developing the destinies of a new country.

The movement to erect a memorial to the late Dr. McIntyre originated at a Liberal convention, at Westsaskia, three and a half years ago. The cost of the fountain was \$12,000, and only \$50 of the necessary amount remains yet to be raised.

COOL AND REFRESHING

## "SALADA"

Iced Tea is the best of all Summer drinks. Invigorating, healthful and economical.

Sealed Lead Packets Only.

Allow the tea to steep for five minutes and then pour off into another vessel to cool gradually. Never use artificial means of cooling until ready to serve; then add sugar, ice and lemon.

### DRIFTWOOD

We were sitting in the kitchen, the Martha-Woman and myself, waiting for a cake to bake. It was a strawberry short cake and the process of making had been most interesting one. The Martha-Woman was washing the dishes in which she had mixed the paste. Pausing for a moment she stood, disheveled in hair, looking out at the lily path of garden where her summer salads were growing. "There isn't a prettier sight, is there?" she queried, turning from the window "than a growing garden, even if it's only growing cabbage and lettuce and radishes and onions." It was a pretty sight, those prim rows of green, the dark green of radish tops, the light green of lettuce and the silvery green of cabbages with the rich black moist earth in between.

"A garden, a lovely garden. God wot!" the Martha Woman sang a line of the old song softly to herself as she looked from the window to open the oven door and lift out the brown cakes.

"Do you remember the Cure's garden in Longueville and the gentle old man who used to sit there and dream of his beloved Marcelline?"

# HITCHCOCK ONCE WAS SHOE CLERK

He Worked in Big Philadelphia Store While "Art" Burned Within His Chest.

Raymond Hitchcock who is chaperoning the beautiful "Red Widow" which comes to the Empire theatre tomorrow night says: "I had every show I'm in, I hate to hear my own voice, and I have to hear it so much. The only joy I have in acting is trying each night to get a little more out of the lines than I got before. Press them. Squeeze them, but make them give up a little more every time."

Some people have been heard to remark, "I wonder how he can do that every night." How can a clerk always be a clerk? And this reminds one that Hitchcock was once a shoe clerk in John Wamamaker's store in Philadelphia. This is some years ago. Then "Art" burned within his chest, and he joined an opera company and acted as a chorus man. One night the opportunity presented itself for him to show what he could do, he was given the principal comedy part, and he made good. Since then Mr. Hitchcock has never had to look for an engagement.

## CHANGE OF MANAGEMENT.

The McLaughlin garage was yesterday taken over by the McLaughlin Motor Car company of Oshawa, the parent firm, who will conduct it as a factory branch service station. A. H. Challinor is manager and D. L. McQuarrie sales manager. The firm are always willing to demonstrate any car on the road.

# ARGENTINE CROP WILL BE HEAVY

Large Increase in Acreage—Russia Loses by Heavy Rains.

Liverpool, July 2.—The earlier American cables and favorable European crop and weather news caused some of the decline in the morning with a decline of 1/4 lower. There was a further partial decline of 1/4 with the undertone of 1/2. The decline in Buenos Ayres, and the favorable crop reports from Argentina together with few nearby offers helped the bearish sentiment. The decline was checked by apprehension regarding the American spring wheat outlook and the firmness of distant offers. At 1:30 p.m. the market was 1/4 to 1/2 lower.

Winnipeg, Man., July 2.—Wheat opened at a decline of 1-8 on July and October, 1-4 advance on December. There was a very active and strong market at the opening with some easing towards the close. Oats were steady, and dull. Flax showed considerable activity and advanced two cents. The weather is moderately warm and dry over the Canadian West. Receipts are light, being 132 cars inspected and 330 in all. Liverpool market closed unchanged to 1-8 lower. Paris 1-2 to 1-4 up; Berlin 2-4 lower; Budapest 1-1-4 lower, and Antwerp unchanged.

## CHICAGO WHEAT

Chicago, Ill., July 2.—Advices that ocean freight now to the extent of 70 boat loads had been taken at New York turned the wheat market upwards today after an easy start. The London market was steady, but the London to weakness at the outset was due to lower cables, and the bearish crop outlook. A steady decline in the London market was followed by a sharp rise in the afternoon. A steady decline in the London market was followed by a sharp rise in the afternoon. ## LONDON STOCKS

London, July 2.—The stock market was mildly depressed today over the Balkan situation, and fears that the stock strike would spread. The latter market was steady, but the London to weakness at the outset was due to lower cables, and the bearish crop outlook.

# Do You Feel Moody, Irritable, Depressed?

When That Languid, Lagg, Easily-Tired Feeling Comes, Your Liver is Slow.

Tells How to Cure Quickly.

"Even when I was young I was not robust, and healthy like other girls. I suffered from headaches, and had not of blue feelings that deprived me of my joy in sports and pleasures. Other girls seemed to get. After I married I found I could not throw away of the other women, and those full feelings of despondency and weakness made me very unhappy. There was no cause to feel so and my doctor said my liver was sluggish, and accounted for my poor color, my tiredness, languor and despair. The pills the doctor gave me were too purgative, made me weaker, because they were too active for my constitution. Dozens of my friends recommended Dr. Hamilton's Pills, and they were so mild and helpful. Well, I never used a pill that did so quickly as Dr. Hamilton's. They were so comfortable to use, I was afraid they might not help. But in a week I knew the pills had been actively engaged in cleaning up my system. They did the work of a tonic and blood medicine combined. I improved to a marvelous degree with Dr. Hamilton's Pills, and I now maintain the most perfect kind of health by using them just once or twice a week."

It is Mrs. E. V. Erlanger, well known at Gloucester, who relates the above experience. She proved what you and all others, men and women, can prove—that Dr. Hamilton's Pills are best for restoring health and best for keeping the system in perfect running order. Don't be misled into using anything but Dr. Hamilton's Pills. 50c a box, five for \$2.00, at all druggists and stockholders, or postpaid by the Catherine Co., Buffalo, N.Y., and Kingston, Canada.

# RABBIT HILLS AND BEAVER HILLS SCHEMES KNOCKED

(Continued from Page 1.)

Summary of Points.

Mr. Stanton covered the ground from his standpoint as follows: "As my knowledge of your various water schemes is limited, I don't want to go into details, and will only deal with the question from the standpoint of fire protection."

"I understand the Rabbit Hills scheme, it is to pump the water up to a hill where it will flow back to the city and give a pressure of about 20 pounds. The only thing such a scheme has to recommend it is that it removes the lake away from the possibility of contamination. The pressure is much too low for fire purposes without using boost pumps."

"I believe the Beaver Hills scheme is to pump the water from the present pumping station up to Beaver Hills. From which point it will flow back, giving a pressure of 70 pounds. That would be better than 20 pounds for fire fighting purposes, but in case of an extraordinary fire it would still be necessary to use the pumps."

"As far as I can see the best scheme would be to pump direct from where you are. This would be more satisfactory as it would save all the friction losses of pumping both ways. "I don't think there is much danger of pollution at your present intake. If you should have trouble when the city grows larger you could easily resort to the sterilization the same as they do in many other large cities."

"If you pump from the present plant and increase your pumping capacity, you can then increase the pressure when required for fire protection and at the same time make provision for cleaning the pumps. In case of a breakdown not be affected."

Alderman Livingston asked Mr. Stanton what would be necessary in order to remove the present surplusage. Mr. Stanton stated that he had no doubt but that this would be taken off as soon as the new electrically operated lift pumps are in operation.

Alderman Lindy asked Mr. Stanton if he could give him a view, in the future, that we would get a more satisfactory system of fire fighting by using the present pumping plant and enlarging it. Mr. Stanton replied that it would certainly be as good, and from an economical standpoint would be preferable.

Mayor Asks Questions.

The mayor asked some questions to get at the pressure that is being maintained in other cities. These questions were answered by Mr. Stanton. Winnipeg has a normal pressure of 100 pounds, with a fire pressure of 150 to 200 pounds. The normal pressure of Calgary runs from 70 to 90 pounds. When the new plant at Regina is completed that city will have a normal pressure of 80 pounds. Toronto maintains a normal pressure of 80 pounds, but has a special fire fighting system capable of 300 pounds pressure. Montreal maintains a normal pressure of 45 to 50 pounds in the city, and 100 pounds in the suburbs.

Alderman East then asked Mr. Stanton if the underwriters could see any need in recommending the city to spend over \$8,000,000 in a water plant at Rabbit or Beaver Hills. Mr. Stanton stated that he saw no reason why they should in their business for such a recommendation, as it means booster pumps and other lines necessary on account of the double pumping, because any reduction in rates could be considered.
